ZHONG SHAN JINRUN ELECTRONICS CO.,LTD

Zhongshan Jinrun Electronics Limited was established in 2010, which is one of the most important suppliers of LCD,LCD module and Backlight in domestic and overseas market. Our main engineers are all graduated from famous universities with more than 10 years' experience in this field. We have stable technical team and management team, as well as skilled operators.

We have factories both located in Jiangsu and Guangdong Zhongshan,the total factory area more than 22，000 square meters. Our product lines cover all modes of LCD such as TN, HTN, STN, FSTN,BTN, VA, TFT, OLED, etc.We can provide customized service for clients.

Jinrun factories are ISO 9001 & ISO 14001 certificated enterprises. Materials are RoHS and REACH qualified via periodic inspection by SGS. Strict quality controls during the whole production process are executed, to ensure the most consistent good level of quality.

Our business partners involve a wide scope including instrument and meters, industrial control applications, intelligent appliances, heating system, medical instrument, communication module, finance device, elevator, electro mobile, automotive instrument and so on.

At Jinrun Electronics, we' re determined to make the most of these opportunities, and help our clients and partners to achieve their visions for the future.

Technology and services keep us at the forefront of the industry

1 Complete Testing

---Hight temperature and Humidity Testing
---Freezing Testing
---Aging Testing
---Tensile Testing
---Thermal Shock Testing

2 High Level R&D

---Steady R&D team to customize products for customers
---Keeping develop new materials and new technology
---Complete system from design, tooling to sample finishing

3 Strong Productivity

---TN /HTN：Around 50 mold，120K pcs/day
---STN：Around 24 mold，30K pcs/day
---BTN：Around 24 mold，30K pcs/day
---Backlight：50K pcs/day
---LCM Module：Customize 20K pcs/day

4 High Standard Production Environment

---Dust-free workshop with class 100 to 10000 super purification environment.
---Following the 7S site management strictly.

We have a young, professional R&D team to develop customized products according to customer's requirements. At present, the company has the design and production capacity of TN, STN, VA and other LCD screens, various backlight devices, as well as LCD modules. It can realize one-stop full-process service capabilities.

TN/HTN LCD

TN LCD For Temperature Control

For Motorcycle Mete

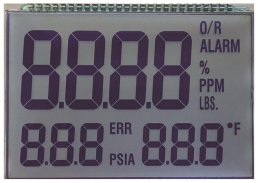

TN LCM

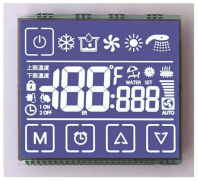

STN/FSTN/VA LCD

FSTN LCD For Industrial Appliance

FSTN products

STN LCD For Water Heater

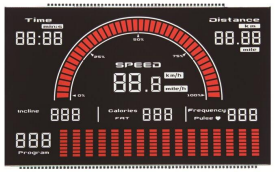

VA Color Silk-print LCD For Medical Instruments

BTN Products

Fast Response Wide Viewing Angles Stable Performance
High Brightness High Contrast Ratio

TFT LCD Module

3.95 inch TFT LCM
(Support Customization)

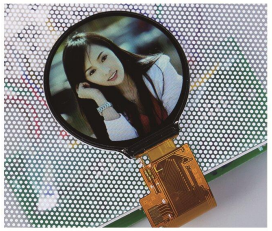

Resolution:
720*720

Dimension:
73.93*78.03(mm)

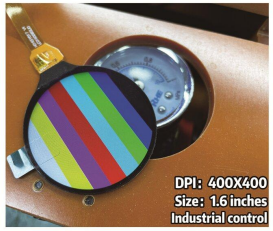

AA Size:
71.93*71.93(mm)

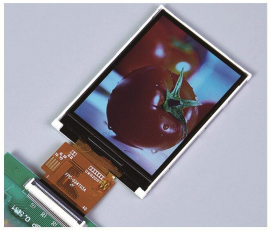

Support Interface:
MIPI

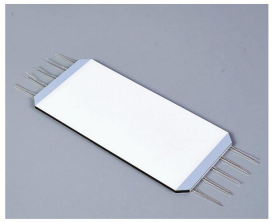

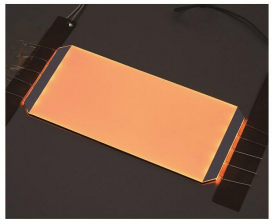

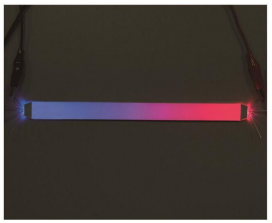

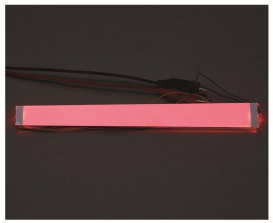

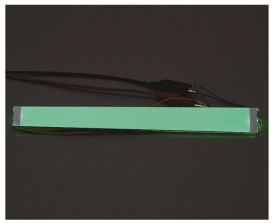

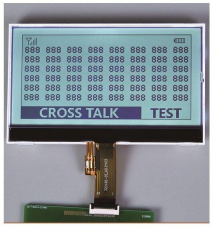

Backlight

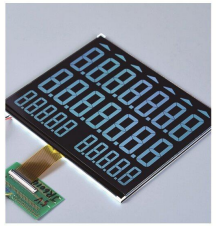

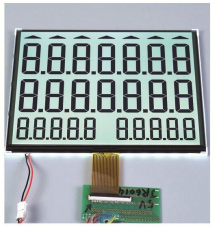

The uniformity of brightness is good, Fast delivery time.

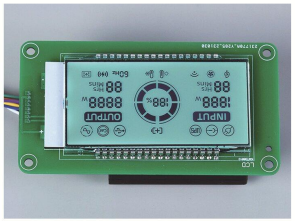

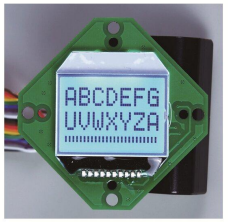

LCD Module

COB/COG Support Customization Fast feedback

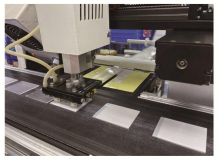

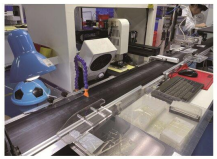

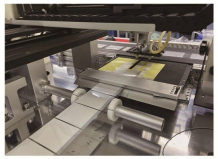

Production Line

Advanced fully automated production line

Equipment

Reliability test equipment.
Using more advanced parallel light exposure machine for front section production which can produce the high-end products with 0.01MM line width and line spacing.

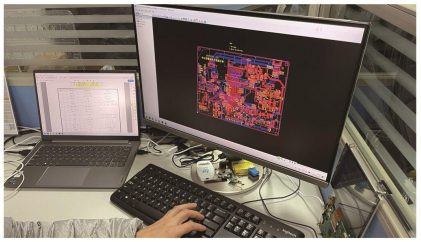

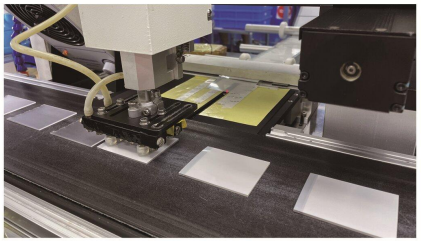

Production Process

Products R&D

Incoming materials inspection.
